

The Rhine

Green Home Living

The new age of Keyless Entry

The latest design in apartment living provides a keyless entry with stylish designer door handle furniture with the convenience of putting the owner in the driver seat to ensure their security is not compromised.

The worry of changing lock batteries is no longer a concern we incorporated an uninterrupted power supply that maintain constant power.

This unique apartment system is a revolutionary step toward energy management in saving wasted power.

An optional integrated alarm system may be fitted to the apartment system on request. This option may also consist of a voice dialer to alert you of an intruder.
